“

What We Do Best ?

We manage prepress, printing, production, packaging & dispatch
- so you can focus on design, sales & growth.

”

HOW IT WORKS?

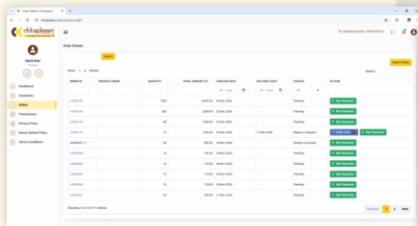

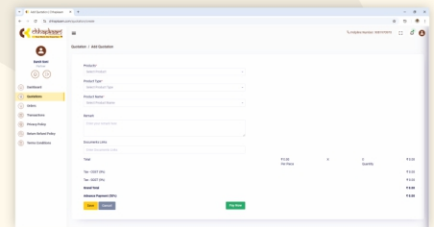

1. Smart Dashboard

Track quotations, orders, live status & order value instantly.

2. Quick Quotation & Order Placement

Create quotations, upload designs & place orders in minutes.

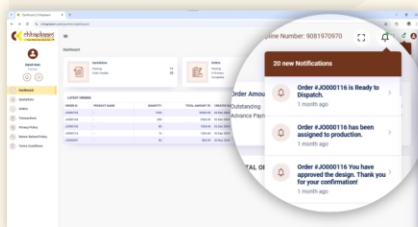

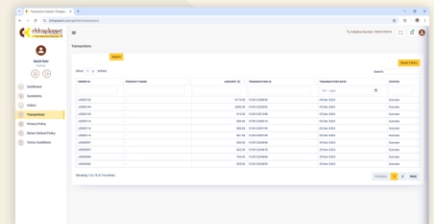

3. Real-Time Order Updates

Real-time Proof approvals, production & dispatch tracking.

4. Easy Payments

Multiple payment options with full transaction history.

5. Instant Notifications

Email & system alerts so you never miss an update.

OUR RANGE OF PRODUCTS

1. HOSPITAL OPD / IPD FILES :

A core healthcare product available in multiple materials, thicknesses, sizes, and finishes to suit different hospital standards. As a daily-use hospital necessity, OPD/IPD files generate high-volume, repeat orders and long-term client retention. Custom branding and formats make this product ideal for designers and printers targeting institutional clients.

MATERIALS AVAILABLE :

- **White FBB Paper Board**
- 300 / 320 / 350 GSM
- **NT (PP) Sheets**
- 270 / 290 / 320 Microns

2. REPORTING FOLDERS (NT L FOLDER) :

A multi-industry, budget-friendly product widely used by diagnostic centres, hospitals, and corporates for handing over reports and important documents. This product offers strong branding visibility at low cost, making it easy to sell in bulk while maintaining healthy margins.

MATERIALS AVAILABLE :

- **NT (PP) Sheets**
- 150 Microns

OUR RANGE OF PRODUCTS

3. LETTERHEAD / REPORTING PAPER :

One of the fastest-moving and most consistent demand products across healthcare and corporate sectors. Easy to design, quick to print, and ideal for continuous bulk & repeat orders, supported by superfast production and consistent print quality.

MATERIALS AVAILABLE :

- **100 GSM Alabaster**
- A4 size (Inkjet Quality Paper)
- With Options of Shrink Pack & Gum Pad.

4. X-RAY, CT - MRI FILM BAGS :

An essential diagnostic product used to safely carry medical films while acting as a powerful branding and recall tool. Also used by hospitals and clinics for OPD files and medicine carry, available in all standard X-ray film sizes, ensuring wide applicability and repeat demand.

MATERIALS AVAILABLE :

- **NT (PP) Sheets**
- 120 / 150 Microns
- **NT Foam Bags**
- **NT Regular Bags**

OUR RANGE OF PRODUCTS

5. PAPER ENVELOPES :

A high-utility, high-volume product required for reports, documents, and film distribution. Available in all standard sizes with multi-colour printing, making it a reliable add-on product for bulk orders and long-term business continuity.

MATERIALS AVAILABLE :

- 100 GSM Maplitho
- 170 GSM Art Paper

6. NON WOVEN CARRY BAGS :

A trending, cost-effective and eco-friendly carry solution accepted across industries such as Healthcare, Retail, Bakeries, and Shopping Malls. Manufactured using virgin-grade, government-approved fabric, with options for D-cut, loop handle, and box bags, and single to multi-colour printing for strong brand visibility.

MATERIALS AVAILABLE :

- Non Woven Bags

OUR RANGE OF PRODUCTS

/ 7. MONO CARTONS:

A versatile packaging solution used across Pharma, FMCG, Cosmetics, and Food & Beverages industries. Our advanced printing and finishing capabilities ensure high precision, faster turnaround, and cost-efficient production, helping you handle both standard and customised packaging requirements.

MATERIALS AVAILABLE :

- 300 GSM Duplex
- 300 / 350 GSM FBB Board
- Printing with Varnish, Lamination, UV Drippoff or Met Pet UV are available.

WHY THESE PRODUCTS ARE BEST FOR YOU?

- High Repeat and Bulk Order Potential
- Customisation-friendly Formats
- Easy Selling Due to Necessity and High Demand
- Strong Branding Visibility for End Clients
- Reliable Production Support for Long-term Partnership
